

Attwater RoHS and WEEE Statement

Iss 3 2015-06

Substances restricted in RoHS and WEEE regulations

Products covered

All laminated sheet, tube and rod manufactured by the Attwater Group and all parts and components machined from those materials.

Declaration

RoHS 11 restricts the use of certain hazardous substances in electrical and electronic products: The proscribed list contains four heavy metals (lead, mercury, cadmium, and hexavalent chromium) and two brominated flame retardants (polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE)).

Directive 2015/863 of 31st March 2015 includes 4 further substances in Annex II (Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP), Diisobutyl phthalate (DIBP)).

The maximum allowed concentrations are 0.1% (except for cadmium which is limited to 0.01%) by weight of homogenous material. Homogenous material means a material that cannot be mechanically disjointed into different materials.

Attwater Group hereby declares that none of the products manufactured by the group utilise any of the proscribed substances during their manufacture or subsequent processing.

M D'Arcy

A handwritten signature in blue ink, appearing to be 'M D'Arcy', written over a light blue rectangular background.
